## Parent Support Services

### **Parent Resources Therapist Supervisor/Service Provider**

#### Perinatal Mood Disorders and Co-Parenting Issues

CPI provides facilitated case management and in-home therapy for women at-risk for or experiencing PMD. These services are provided by licensed therapists, interns, trainees and peer providers. In addition CPI provides a range of services to families that are experiencing divorce and separation. One of these services includes low fee co-parent counseling. We are seeking a MFT/LCSW with experience in these areas to provide supervision and some direct services in these programs. The ideal candidate will be familiar with brief psychotherapy models including Interpersonal Psychotherapy and Cognitive Behavioral Therapy. We will provide training in the Mothers and Babies Curriculum. Our program includes in-home visitation as well as on-site services. Consultation with medical providers may be included. In the role of supervisor, the therapist will be expected to recruit new trainees and interns, to provide both individual and group supervision which includes reviewing one taped session per week per supervisee, and to complete all State required forms.

Licensed Therapist (LCSW or MFT) to work 20-32 hours per week providing supervision and client services. Pay depends on experience. Bilingual Spanish-speaking is a plus.
